

POMOR VI (2013-2015)

Name	Master thesis	Scientific supervisors
Boeva, Alexandra	Bioturbation potential of the <i>Amphiura filiformis</i> community in the German Bight, North Sea	Dr. Marina Varfolomeeva (Saint Petersburg State University) Prof. Dr. Thomas Brey (Alfred Wegener Institute, Helmholtz Center for Polar and Marine Research)
Buinyi, Aleksei	Investigation of wind-driven waves from moored instrumentation in the Laptev Sea	Dr. Ruslan May (Institute of Earth Sciences, Saint Petersburg State University)  Dr. Markus Janout (Alfred Wegener Institute Helmholtz Center for Polar and Marine Research)
Ivanov, Evgeny	Model simulations of storm impacts on the mixed layer structure and related processes in the North Sea and the Baltic Sea	Dr. Oleg Savchuk (Institute of Earth Sciences, Saint Petersburg State University) Prof. Dr. Hans Burchard (Leibniz Institute for Baltic Sea Research Warnemünde) PD. Dr. Thomas Pohlmann (Hamburg University)
Khatmullina, Lilia	Simulating the spatio-temporal variability of biological productivity and the oxygen minimum zone in the Eastern Tropical Pacific	Dr. Oleg Savchuk (Institute of Earth Sciences, Saint Petersburg State University) Prof. Dr. Birgit Schneider (Kiel University)

POMOR VI (2013-2015)

Name	Master thesis	Scientific supervisors
Kudryavtseva, Anna	Reconstruction of Late Quaternary paleoenvironment based on sediment cores from the Lomonosov Ridge (Arctic Ocean)	Dr. Evgenia Bazhenova (Institute of Earth Sciences, Saint Petersburg State University) Prof. Dr. Rüdiger Stein (Alfred Wegener Institute Helmholtz Center for Polar and Marine Research)
Petrova, Mariia	Neodymium isotopes and rare earth element distribution in the Barents Sea, Arctic Ocean	Prof. Dr. Vladislav Kuznetsov (Institute of Earth Sciences, Saint Petersburg State University)  Prof. Dr. Martin Frank (GEOMAR Helmholtz Centre for Ocean Research Kiel)
Ponomarenko, Ekaterina	Reconstruction of late Quaternary Arctic Ocean sea-ice cover based on sedimentary records	Dr. Alexey Krylov (Institute of Earth Sciences, Saint Petersburg State University) Prof. Dr. Rüdiger Stein (Alfred Wegener Institute Helmholtz Center for Polar and Marine Research) Dr. Heidemarie Kassens (GEOMAR Helmholtz Centre for Ocean Research Kiel)
Simonenkova, Kseniia	GIS Analysis of the spatial dynamics of thermokarst lake shores in the Teshekpuk Lake region (Alaska) using historical remote sensing data	Prof. Dr. Kirill Chistyakov Institute of Earth Sciences, SPbU Dr. Guido Grosse (Alfred Wegener Institute Helmholtz Center for Polar and Marine Research)

POMOR VI (2013-2015)

Name	Master thesis	Scientific supervisors
Zolotareva, Anna	Physiological aspects of <i>Melosira arctica</i> (Bacillariophyceae) life cycle	Prof. Dr. Dmitry Vlasov (Saint Petersburg State University) Dr. Klaus-Ulrich Valentin (Alfred Wegener Institute Helmholtz Center for Polar and Marine Research)
