

Dr. rer. nat. Anastasia Zhuravleva

🎓 2011

📍 Kiel, Germany

📌 Academy of Sciences, Humanities and Literature Mainz
c/o GEOMAR Helmholtz Centre for Ocean Research Kiel

POMOR gave me the opportunity to enjoy the vibrant campus life as an international student during my semester at Kiel University. In addition, I was lucky to get an internship at GEOMAR Helmholtz Centre for Ocean Research, where my scientific interests shifted from ecological modeling to climate and ocean history. During POMOR years I deepened my understanding of various processes in the polar regions and learned about funding opportunities for future research projects. Thanks, POMOR, for this unforgettable time of my life!
